GCSE GEOGRAPHY

Paper 2: Challenges in the human environment

Topic 5: The changing economic world

Practice questions in the style of AQA GCSE Geography (8035). Every question is original; the layout, command words, mark allocations (including levels-based 6- and 9-mark questions with SPaG) and mark scheme follow the real exam format. Figures and data are illustrative and simplified for practice; case-study facts in the mark scheme are summarised, so check them against your own case-study notes.

Time allowed	About 125 minutes (roughly 1 minute per mark)
Materials	For this paper you must have: a black pen, a pencil, a ruler, a calculator and (for some questions) a protractor.
Instructions	• Use black ink or black ball-point pen. Use pencil only for drawing. • Answer **all** questions. • You must answer the questions in the spaces provided. • Do all rough work in this book. Cross through any work you do not want to be marked. • Questions that carry a **SPaG** note are also marked for spelling, punctuation, grammar and the use of specialist terminology.
Information	• The maximum mark for this paper is **120**. • The marks for questions are shown in brackets. • Questions that start with the command word *Explain* need developed points (a point plus a reason or consequence). • 6- and 9-mark questions are marked by **levels**: aim to give a detailed, balanced and well-linked answer, using place-specific detail.

Name: _____ Date: _____ Mark: _____ / 120

Section B: The changing economic world

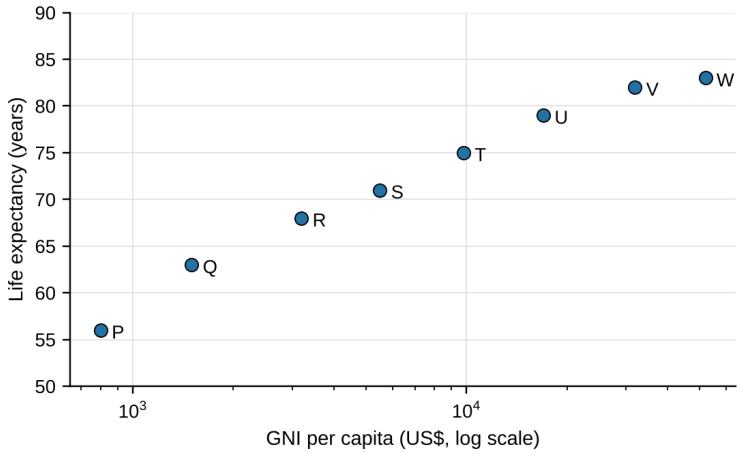

Answer all questions in this section.

0 1 This question is about differences in economic development. **Figure 1** shows GNI per capita and life expectancy for eight countries.

0 1 . 1 What is meant by **GNI per capita**? **[1 mark]**

0 1 . 2 Describe the relationship shown in Figure 1. **[3 marks]**

Figure 1

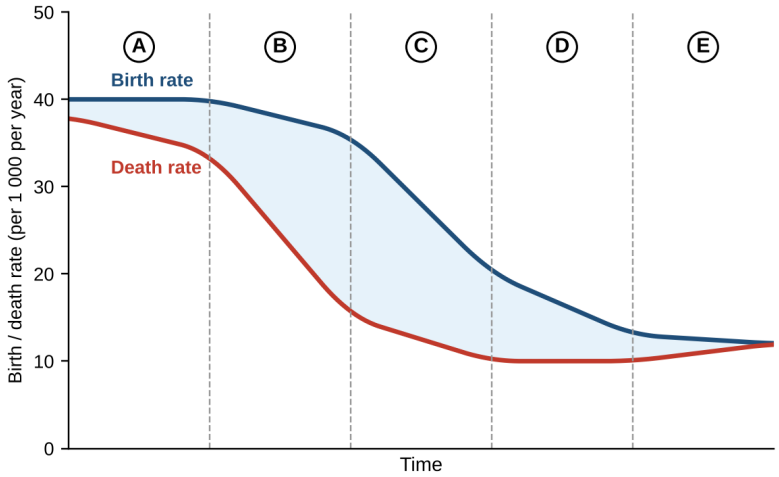

0 1 . 3 Suggest **two** reasons why GNI per capita is not a reliable measure of development on its own. **[2 marks]**

0 1 . 4 Name **two** social indicators of development. **[2 marks]**

0 1 . 5 Explain why the **Human Development Index (HDI)** gives a better picture of development than GNI per capita alone. **[3 marks]**

0 1 . 6 **Figure 2** shows the Demographic Transition Model. Which stage, **A** to **E**, is most likely to match a country with a high birth rate and a rapidly falling death rate? Give **one** reason. **[2 marks]**

Figure 2

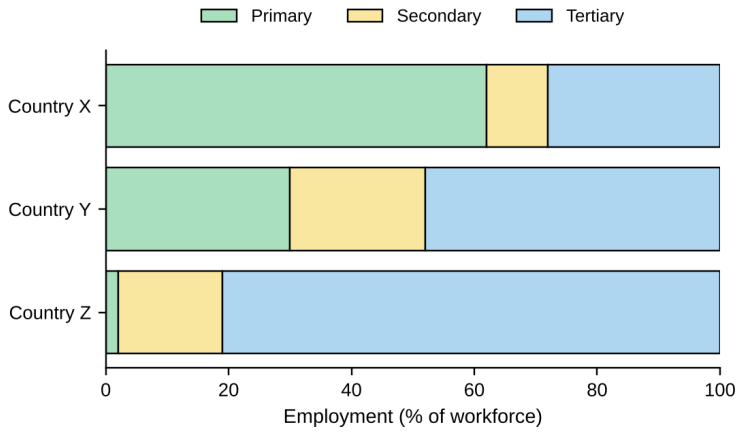

0 1 . 7 Explain why the population growth in stage C is slowing. **[3 marks]**

0 1 . 8 Explain how the population structure of a lower income country differs from that of a higher income country. **[4 marks]**

0 2 This question is about reducing the development gap. **Figure 3** shows employment in three countries.

0 2 . 1 Which country in Figure 3 is most likely to be a higher income country? Give **one** reason. **[2 marks]**

Figure 3

0 2 . 2 Calculate the percentage of people in Country Y who work in the secondary sector or tertiary sector. **[2 marks]**

Answer = _____ %

0 2 . 3 Explain how a country's **physical** geography can cause uneven development. **[4 marks]**

0 2 . 4 Explain how **historical factors** (e.g. colonialism) can cause uneven development. **[3 marks]**

0 2 . 5 Describe **two** consequences of uneven development for people living in a lower income country. **[4 marks]**

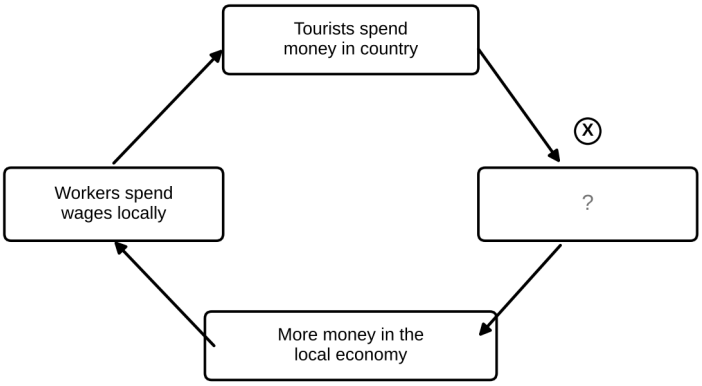

0 2 . 6 Explain how **fair trade** can help to reduce the development gap. **[3 marks]**

0 2 . 7 Describe how **debt relief** or **micro-finance loans** could help a lower income country. **[3 marks]**

0 2 . 8 Explain why aid does not always help a country to develop. **[3 marks]**

0 2 . 9 **Figure 4** shows the tourism multiplier effect. What goes in box **X**? Explain how tourism can help a country to develop. **[4 marks]**

Figure 4

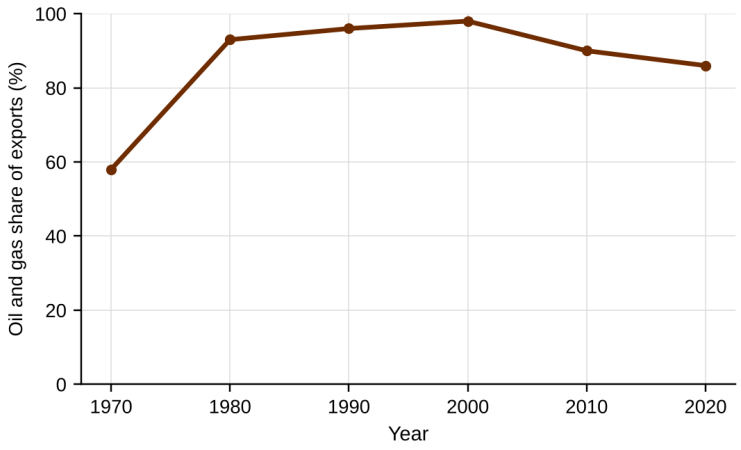

0 2 . 10 Evaluate the effectiveness of a strategy that has been used to reduce the development gap in a lower income country or newly emerging economy that you have studied (e.g. tourism in Jamaica or Kenya). **[6 marks]**

0 3 This question is about a newly emerging economy (NEE) you have studied. Refer to **Nigeria** (or another NEE). **Figure 5** shows the share of Nigeria's exports that came from oil and gas.

0 3 . 1 Describe the trend shown in Figure 5. **[3 marks]**

Figure 5

0 3 . 2 Explain why having an economy that depends on one product, such as oil, can be a risk for a country. **[3 marks]**

0 3 . 3 Describe **two** ways in which Nigeria is important regionally or globally. **[2 marks]**

0 3 . 4 Explain how **transnational corporations (TNCs)** can help the economic development of a country such as Nigeria. **[4 marks]**

0 3 . 5 Explain **one** negative environmental impact of industrial development in Nigeria. **[3 marks]**

0 3 . 6 Describe how Nigeria's relationship with the wider world has changed. **[3 marks]**

0 3 . 7 Explain how the growth of manufacturing industry in an NEE can improve quality of life for local people. **[4 marks]**

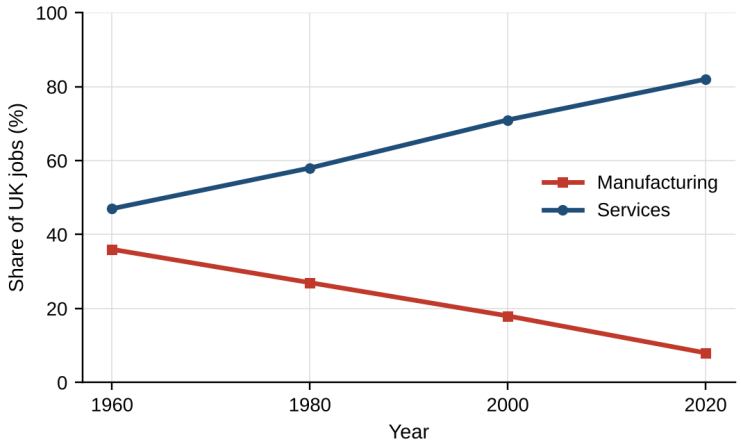

0 3 . 8 **'The growth of TNCs brings more benefits than problems to an NEE.'** **[9 marks]**
To what extent do you agree? Refer to a named NEE. **+ [3 marks]**
SPaG

Spelling, punctuation, grammar and use of specialist terminology [3 marks]

0 4 This question is about the changing economy of the UK. **Figure 6** shows how employment has changed in the UK.

0 4 . 1 Calculate the percentage point change in manufacturing jobs between 1960 and 2020. **[2 marks]**

Figure 6

Answer = _____ percentage points

0 4 . 2 Describe the change in services employment shown in Figure 6. **[2 marks]**

0 4 . 3 Explain **two** reasons why manufacturing jobs have declined in the UK. **[4 marks]**

0 4 . 4 What is meant by a **post-industrial economy**? **[1 mark]**

0 4 . 5 Describe **two** features of a science park or business park. **[2 marks]**

0 4 . 6 Explain how the **North–South divide** in the UK is shown by economic data. **[3 marks]**

0 4 . 7 Explain **two** ways in which the North–South divide could be reduced. **[4 marks]**

0 4 . 8 Describe how **transport** improvements have helped economic development in the UK. Refer to named examples. **[4 marks]**

0 4 . 9 Explain how the UK's economy depends on trade and links with the wider world. **[4 marks]**

0 4 . 10 Explain how industry in the UK can be made more sustainable. Refer to examples. **[6 marks]**

END OF QUESTIONS

MARK SCHEME – Topic 5: The changing economic world

How to use this mark scheme: mark your own work in a different colour. A semicolon (;) separates marking points and each is worth one mark unless stated. A slash (/) separates alternative answers that are equally acceptable. Words in brackets are not needed to gain the mark. **Allow** = acceptable; **Ignore** = neither credited nor penalised; **Do not accept** = contradicts or spoils the answer. Marks are for the *geography*, not the wording.

Question	Answers	Extra information	Mark	AO / Spec. Ref.
01.1	the total income of a country in a year divided by the number of people (average income per person)		1	AO1 3.2.2.1
01.2	positive correlation / as GNI rises, life expectancy rises ; the increase is greater at lower GNI / slows at high GNI (curve flattens) ; use of figures e.g. P: $800, 56 years; W: $52 000, 83 years ;		3	AO3 3.2.2.1
01.3	it is an average, so hides inequalities between rich and poor ; does not show quality of life: education, health, freedom ; informal economy is not included in figures ; currency / cost of living differences ;		2	AO2 3.2.2.1
01.4	life expectancy ; infant mortality ; literacy rate ; access to safe water ; people per doctor ; (any other social measure) ;	Any two. Do not accept GNI (economic).	2	AO1 3.2.2.1
01.5	it combines several measures: income, life expectancy and education / years of schooling ; so it shows both economic and social development ; HDI is a value between 0 and 1 allowing easier ranking / comparison ;		3	AO1/AO2 3.2.2.1
01.6	B ; death rate falls because of better healthcare / food / sanitation, but birth rate stays high ;	Allow stage 2.	2	AO2 3.2.2.1
01.7	birth rate falls ; due to contraception / family planning / education of women / lower infant mortality, so fewer babies needed ; death rate is low and stable, so the gap between birth and death rates narrows ;		3	AO2 3.2.2.1

Question	Answers	Extra information	Mark	AO / Spec. Ref.
01.8	LICs have a wide base (many young) and narrow top because of a high birth rate and low life expectancy ; HICs have a more rectangular / narrower base due to a low birth rate ; HICs have more elderly people / ageing population because of good healthcare ; LICs have a large dependent young population, HICs have a large dependent elderly population ;		4	AO2 3.2.2.1
02.1	Country Z ; most people work in the tertiary sector (81%), few in primary (2%) ;		2	AO3 3.2.2.1
02.2	22 + 48 ; 70 (%) ;	Allow 100 − 30 = 70.	2	AO4 3.2.2.1
02.3	lack of natural resources / minerals means fewer exports ; natural hazards (earthquakes, drought, tropical storms) damage development and cost money ; landlocked / poor access to the sea makes trade expensive ; tropical climate: disease (malaria), unreliable rain, poor soils ;		4	AO2 3.2.2.2
02.4	colonial powers took raw materials, with profits going abroad ; colonies had borders drawn without regard to ethnic groups, causing conflict ; colonial countries were left with debts / lack of industry / infrastructure for local trade ;		3	AO2 3.2.2.2
02.5	low incomes, poverty / poor standard of living ; poor health: lower life expectancy, higher infant mortality ; poor education / lower literacy ; migration to other countries / brain drain ; poor access to clean water and food ;		4	AO1/AO2 3.2.2.2
02.6	farmers get a guaranteed (higher) price for their goods ; money is invested in community projects like schools and wells ; better working conditions and long-term contracts, so more stable incomes ;		3	AO2 3.2.2.3
02.7	debt relief: cancelling / reducing debt interest allows money to be spent on health / education ; micro-finance: small loans to individuals to start small businesses ; which increases income and local jobs / lifts families out of poverty ;		3	AO1/AO2 3.2.2.3
02.8	money may be misused / corruption ; aid may come with conditions (tied aid) to buy goods from the donor ; people may become dependent on aid / aid does not tackle the root causes of poverty ;		3	AO2 3.2.2.3

Question	Answers	Extra information	Mark	AO / Spec. Ref.
02.9	X: more jobs created / local businesses (hotels, restaurants, guides) ; tourist money brings foreign currency / income to the economy ; taxes can be spent on schools, roads, hospitals ; improved infrastructure (airports, roads) helps locals as well as tourists ;	1 mark for X, 3 for explanation.	4	AO2 3.2.2.3
02.10	**Level 3 (5–6 marks)**: Detailed, accurate and relevant knowledge and understanding of the topic. Clear, well-developed and logically structured explanation/analysis with specific links made between ideas (and a use of place detail or the resources where asked). **Level 2 (3–4 marks)**: Some relevant and accurate knowledge and understanding. Some explanation/analysis, but developed unevenly or with limited links. Some use of detail or the resources. **Level 1 (1–2 marks)**: Basic, general knowledge with limited accuracy or relevance. Simple statements; little or no explanation or use of detail. **0 marks**: No relevant content.		6	AO1/AO3 3.2.2.3
	Indicative content (credit any other valid geography, and place-specific detail): • named place and strategy (e.g. tourism in Jamaica; ~4 million visitors a year) ; • benefits: jobs (about 1 in 4), foreign currency, new roads and airports ; • multiplier effect creates other jobs, improved income for local people ; • problems: leakage (profits leave the country to foreign-owned resorts) ; low-paid / seasonal jobs ; • environmental damage (coral reefs, waste) / hurricanes affect tourism ; • judgement of how effective: development depends on local ownership and sustainable management ;			
03.1	increases sharply from 58% in 1970 to about 93% in 1980 ; reaches a peak of about 98% in 2000 ; then falls gradually to about 86% by 2020 ;		3	AO3 3.2.2.4
03.2	if the price falls, the country's income falls (price shocks) ; if the resource runs out, the economy collapses ; other industries (such as manufacturing / farming) do not develop ;		3	AO2 3.2.2.4

Question	Answers	Extra information	Mark	AO / Spec. Ref.
03.3	largest population in Africa (over 200 million) / large market ; one of the largest oil producers in Africa, OPEC member ; largest economy in Africa ; Nollywood: major film industry / African culture exported ; member of regional organisations (e.g. ECOWAS, the African Union) ;		2	AO1 3.2.2.4
03.4	provide jobs and wages for local people ; bring new technology and skills, training the workforce ; taxes paid / foreign investment: government can spend on services ; roads and infrastructure improved ; multiplier effect: more local businesses supply TNCs ;		4	AO2 3.2.2.4
03.5	oil spills (e.g. in the Niger Delta) pollute water and farmland ; gas flaring causes air pollution / CO_2 emissions ; so fish stocks and farming are affected, damaging the local people's livelihoods ;		3	AO2 3.2.2.4
03.6	trade has increased, e.g. exports of oil to the USA, India, Europe ; increase of foreign investment (e.g. from China) in roads / railways ; Nigeria receives aid from donors and remittances from Nigerians abroad ;		3	AO1 3.2.2.4
03.7	creates jobs, which raises wages and living standards ; more money spent locally, so the multiplier effect ; taxes can fund health and education ; improved infrastructure / electricity / roads ; improved skills and training ;		4	AO2 3.2.2.4
03.8	**Level 3 (7–9 marks)**: Detailed, accurate knowledge and understanding of the topic with a well-developed, balanced and logical argument. A clear, supported **evaluation/judgement** that is based on evidence (and specific place detail or the resources where asked). Any conclusion is fully justified. **Level 2 (4–6 marks)**: Some accurate knowledge and understanding. Some development of ideas with evidence; the judgement/evaluation is partial, unbalanced or not fully supported. **Level 1 (1–3 marks)**: Limited knowledge and understanding. Simple statements with little development; a judgement, if any, is unsupported. **0 marks**: No relevant content.		9 + 3 SPaG	AO1/AO2/AO3 3.2.2.4

Question	Answers	Extra information	Mark	AO / Spec. Ref.
	Indicative content (credit any other valid geography, and place-specific detail): • Agree: TNCs bring investment, jobs and income ; new technology and training for the workforce ; supply chain growth (multiplier effect) ; improved roads, power ; • Agree: tax revenue funds services ; raises export income ; • Disagree: profits go back to the TNC's home country (leakage) ; low wages and poor conditions ; jobs may be lost if the TNC leaves ; • Disagree: environmental damage, e.g. oil spills in the Niger Delta, loss of farmland ; local people have little say ; • Evaluation: depends on regulation and agreements by the government, and who benefits ; judgement with named example (e.g. Shell in Nigeria) ;			
	SPaG (3 marks) – award separately: **High performance (3)**: Learners spell and punctuate with consistent accuracy and consistently use rules of grammar; they use a wide range of specialist terms adeptly and with precision. **Intermediate performance (2)**: Learners spell and punctuate with considerable accuracy and use rules of grammar with general control; they use a good range of specialist terms with facility. **Threshold performance (1)**: Learners spell and punctuate with reasonable accuracy and use rules of grammar with some control; they use a limited range of specialist terms appropriately. **0 marks**: No marks awarded: no response or the spelling, punctuation and grammar is too weak, or the terminology is not relevant.			
04.1	36 − 8 ; 28 (percentage points) fall / decrease ;	Must show a decrease.	2	AO4 3.2.2.5
04.2	increases / grows steadily ; from 47% (1960) to 82% (2020) / rise of 35 percentage points ;		2	AO3 3.2.2.5
04.3	competition from cheaper imports / lower wages overseas (globalisation) ; factories relocated abroad, e.g. TNCs move to Asia ; automation / machines replaced workers ; resources, such as coal, ran out / old industries closed (e.g. steel) ; high taxes and costs ;		4	AO2 3.2.2.5
04.4	an economy dominated by services (tertiary and quaternary) rather than manufacturing		1	AO1 3.2.2.5

Question	Answers	Extra information	Mark	AO / Spec. Ref.
04.5	located on the edge of a city / near motorways and airports ; pleasant landscaped environment with green space ; close links to a university (e.g. Cambridge Science Park) ; modern buildings, high-tech / research firms ; cheap, available land / good parking ;		2	AO1 3.2.2.5
04.6	average incomes / house prices are higher in the South East ; higher unemployment rates in the North (e.g. North East) ; more higher-paid jobs / headquarters / research firms in the South, and fewer in the North ;		3	AO2 3.2.2.5
04.7	investment in transport (HS2, Northern Powerhouse Rail) to link northern cities ; enterprise zones with tax breaks and reduced costs to attract firms ; government relocating jobs / civil service posts to the North ; investment in education / training / universities in northern cities ; support for renewable energy / digital industries ;		4	AO2 3.2.2.5
04.8	motorways (e.g. M25 / M62) link cities, reducing transport time ; airports expanded (e.g. Heathrow) ; Channel Tunnel to Europe ; rail: HS2 / Crossrail to reduce journey times, and relieve overcrowding ; ports (e.g. Felixstowe) improve exports ;		4	AO1/AO2 3.2.2.5
04.9	member of trade groups (e.g. Commonwealth, G7, WTO) ; exports services (finance, law), cars, pharmaceuticals ; imports food and goods from abroad ; cultural links through language (English), history and migration ; TNCs invest in the UK (e.g. Nissan in Sunderland) ;		4	AO1/AO2 3.2.2.6

Question	Answers	Extra information	Mark	AO / Spec. Ref.
04.10	**Level 3 (5–6 marks)**: Detailed, accurate and relevant knowledge and understanding of the topic. Clear, well-developed and logically structured explanation/analysis with specific links made between ideas (and a use of place detail or the resources where asked). **Level 2 (3–4 marks)**: Some relevant and accurate knowledge and understanding. Some explanation/analysis, but developed unevenly or with limited links. Some use of detail or the resources. **Level 1 (1–2 marks)**: Basic, general knowledge with limited accuracy or relevance. Simple statements; little or no explanation or use of detail. **0 marks**: No relevant content.		6	AO1/AO2 3.2.2.5
	Indicative content (credit any other valid geography, and place-specific detail): • use of renewable energy (wind farms) ; cutting CO_2 ; • recycling and reducing waste ; • brownfield redevelopment / use of derelict land ; • green building design / energy efficiency in factories, e.g. low-carbon science parks ; • clean technology (carbon capture) ; electric vehicles ; • judgement: sustainable industry depends on cost and government support ;			

Where marks are lost in Topic 5

Use this page after marking. Tick the ones that cost you marks, then redo those questions closed-book.

- ☐ **Development indicators:** know the difference between social (life expectancy, literacy) and economic (GNI, % in primary) measures. One measure alone is not enough – say why HDI is better.
- ☐ **Graph descriptions:** use figures and units, and describe overall trend first, then specific changes or exceptions.
- ☐ **DTM:** learn the stage descriptions – (1) high-high, (2) death rate falls, (3) birth rate falls, (4) low-low, (5) birth below death. Link to causes (healthcare, contraception, education).
- ☐ **NEE case study:** give *exact* details: Nigeria – location, oil, population, Nollywood, TNCs (Shell), Niger Delta spills, manufacturing growth, remittances.
- ☐ **UK case:** post-industrial, science parks, North–South divide, HS2, Commonwealth links. Learn at least two named examples for each.
- ☐ **'Evaluate' questions:** each point needs a *for* and an *against*, and then your judgement about 'to what extent'.
- ☐ **Tourism multiplier:** never just say 'tourists bring money'. Explain the chain: jobs → spending → more jobs/taxes → services.
- ☐ **Leakage:** a favourite examiner point – profits from foreign-owned businesses leave the country.
